

THE SUPPER CLUB

Advanced Training for Repair Shops

The “SUPPER CLUB” is a group of 7-11 shop owners and spouses or managers who meet locally 6 times a year. No long distance air travel. We will discuss and implement business strategies that will help increase your net profit immediately. You will share your successes with the group as well as your most pressing business problems and club members will try to solve them for you. You will develop an operations manual on “How to run a successful repair business” and you can volunteer to have the group make an on site evaluation of your shop. At each meeting you will be assigned simple tasks to be completed before attending the next meeting and you will be asked to share your successes with the group at the next meeting PLUS you have access to Vin Waterhouse. Supper Club meetings are held 6 Times per year from 1:00 PM - 8:00 PM in your area. For those that belong to a NAPA BDG group this is a perfect marriage. We can provide the business training to a NAPA Business Development Group.

THE INVESTMENT IS \$400 per month for 12 months for a total investment of \$4,800. About 75% LESS THAN ANY SIMILAR PROGRAM OFFERED TODAY. Additional expenses include the cost of location, Vin's sleeping room and dinner which will be split evenly by the group members. The fee includes 2 people or more from the same shop; ex: husband / wife or owner / service manager. We urge you to bring your bookkeeper to the first meeting. There is a 7 day evaluation period after the 1st meeting during which a member may withdraw from the club and receive 1/2 their initial payment back upon return of all materials. The program can go up to 14 months to include training of your service manager and all shop employees including technicians.

We start with your most recent 3 months data and account for every check you have written. At each meeting you will receive a confidential financial analysis of your business and how you compare to the group's performance as well as the average and top 25% most profitable shops in the industry. Then we work on getting your shop amongst the most profitable shops.

WATERHOUSE GROUP SUPPORT:

Between meetings you have unlimited support from us via telephone, web meetings and email. We provide you with a monthly / annual target for income and expenses. Your results will be monitored. You will have a daily plan and know what your sales, expenses & profit will be months in advance. Topics such as sales, selling & getting paid for diagnostics, service management issues, marketing, factory efficiency, job descriptions, job qualifications, employee incentives and inventory control will be covered as well.

We would like to start a club within 75 miles of your shop.
